Value from Innovation

SonoSite Edge II Vet

DIAGNOSTIC
IMAGING,
WHERE YOU
NEED IT,
WHEN YOU
NEED IT.

IMAGE QUALITY, EFFICIENCY, PORTABILITY
AND SONOSITE'S LEGENDARY DURABILITY.

Edge II Vet has been redesigned to meet the challenges of the veterinary work environment and is durable enough to withstand your most difficult work day. Portable imaging has never been better. Improved resolution and easy to use controls make the Edge II Vet efficient, so you can concentrate on your patients.

SonoSite Edge II Vet

IMAGE QUALITY

DirectClear technology combines several new design features for significant imaging performance. You get the image you need, when you need it.

DURABILITY

The latest survivor of the three-foot drop test has been completely re-engineered to an even higher standard. Edge II Vet handles both extreme temperatures and humidity and has a keyboard that is resistant to fluids.

NEEDLE VISUALIZATION

SonoSite's Steep Needle Profiling technology provides needle visualization to assist with all ultrasound guided needle procedures, especially during steep-angled procedures.

PORTABILITY

One might expect to have to make sacrifices in portability to have the largest, highest resolution ultrasound image available in a portable ultrasound. Yet Edge II Vet still comes in under 10 pounds and is as compact as it possibly could be.

EFFICIENCY

From power on to scanning in less than 25 seconds, our system gets you a faster diagnostic image. With a user interface as simple, intuitive and efficient as possible, Edge II Vet will get you through your imaging rapidly.

WARRANTY

SonoSite's industry leading 5-year warranty includes an overnight loaner, should you ever require one, providing years of worry free service.

SMALL ANIMAL IMAGING

Edge II Vet is a robust ultrasound system providing outstanding abdominal and cardiac imaging capabilities. Elegant in its design simplicity, Edge II Vet is a powerful diagnostic ultrasound solution for small animal veterinary medicine.

SEEING IS BELIEVING.

- Armored Cable Transducers
- Auto Export

Anti-glare glass etching for outdoor viewing

Sealed keyboard

Gain control dials

Magnesium core for durability

Low profile, tactile keys

SONOSITE EDGE II VET TRANSDUCERS

SonoSite designs, manufactures and tests transducers in-house with real-world customer needs in mind. Our transducers exceed stringent military specifications for drop testing built to withstand the knocks and scrapes inevitable in any busy veterinary practice.
