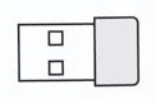
Wireless adapter (1)



Caution

To avoid damaging the system:

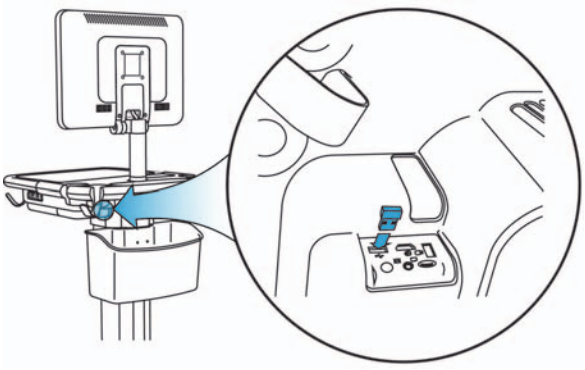
- Use only peripherals recommended by FUJIFILM SonoSite with the ultrasound system.
- Turn off the system power before inserting the wireless adapter.
- When using the SonoSite X-Porte in desktop mode, remove the wireless adapter before returning the system to kiosk mode.

Installing the wireless adapter on SonoSite X-Porte

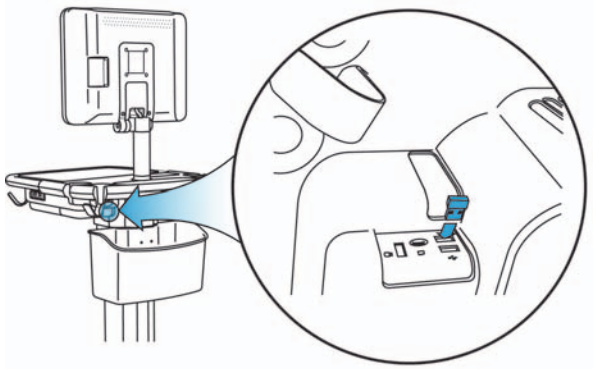
To install on a system in kiosk mode

Plug the wireless adapter into the USB port on the back of the SonoSite X-Porte system beneath the Power button. Choose the diagram below that best fits your SonoSite X-Porte configuration:

Configuration 1

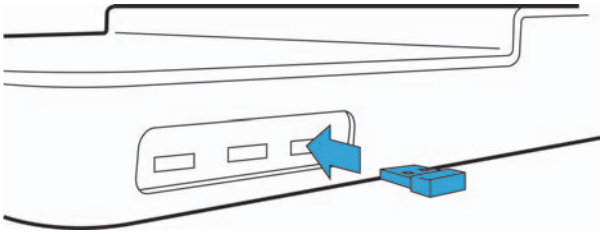


Configuration 2



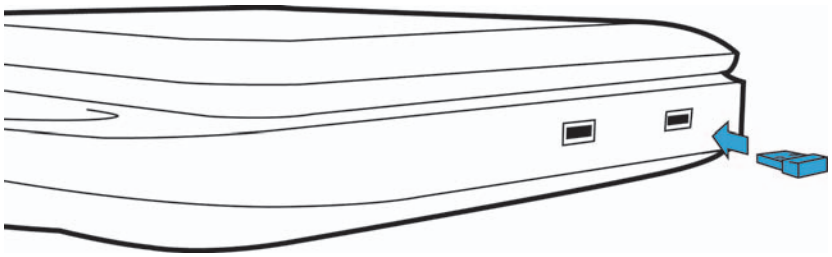
To install on a system in desktop mode

On the right side of the system, plug the wireless adapter into the rearmost of the three USB ports.



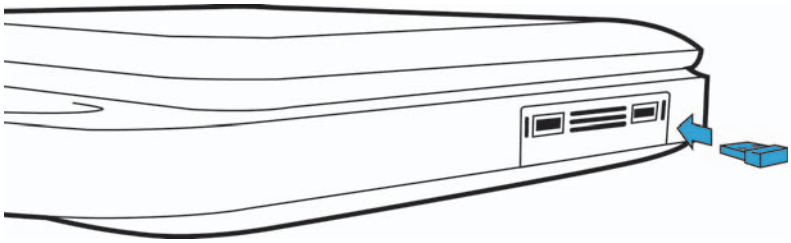
Installing the wireless adapter on SonoSite Edge

Install the wireless adapter in a USB port on the right side of the system.



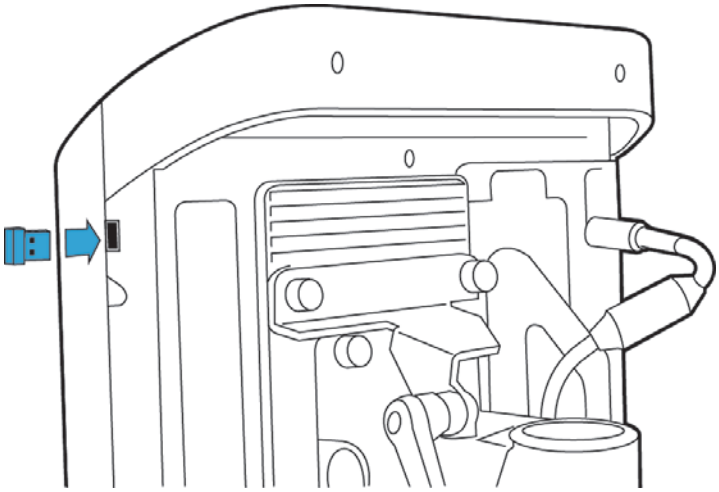
Installing the wireless adapter on SonoSite Edge II

Install the wireless adapter in a USB port on the right side of the system.



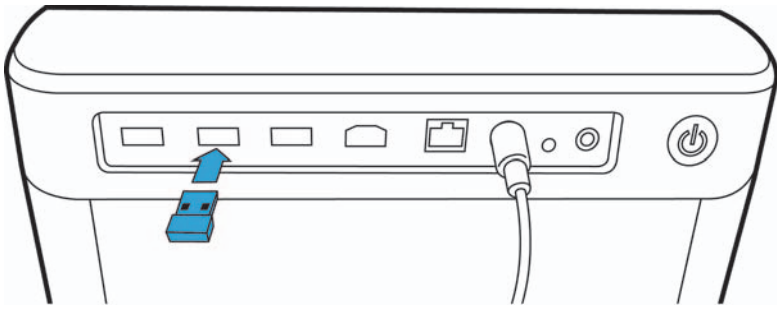
Installing the wireless adapter on SonoSite S Series

Install the wireless adapter in a USB port on the upper right side of the system.



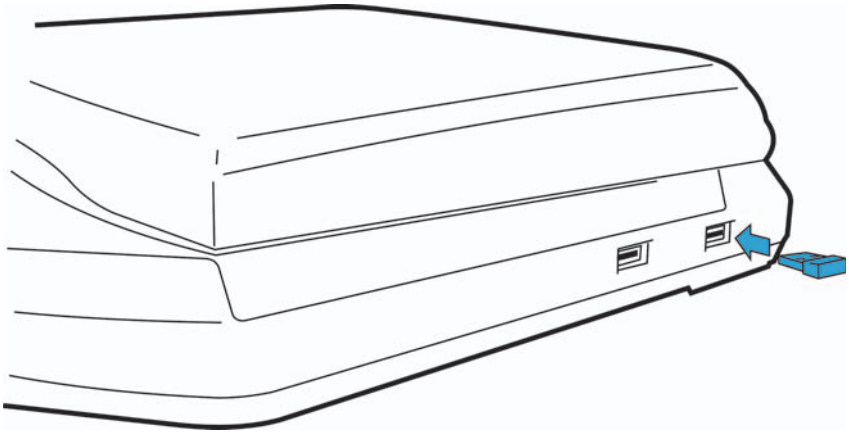
Installing the wireless adapter on SonoSite SII

Install the wireless adapter in a USB port on the upper back of the system.



Installing the wireless adapter on SonoSite M-Turbo

Install the wireless adapter in a USB port on the right side of the system.



Finding the MAC address of the wireless adapter

To find the MAC address on X-Porte

1 Tap **MORE**, and then tap **System Settings**.

2 Tap **Connectivity** in the list on the left.

3 On the **Connectivity** setup page, tap **DICOM Setup**.

4 Tap **Config**, and tap **Location**.

5 Tap an already configured location, or tap **New**.

6 Do one of the following:

   a If the **Wireless** check box is already checked, proceed to Step 7.

   b If the **Wireless** check box is unchecked, select it to check the box. Click **Done** then **Restart** to save and restart the system. After the system restarts, tap **More** then **System Settings**.

7 Tap **Network Status** in the list on the left.
The MAC address for the wireless adapter is listed under **Wireless MAC Address**.

To find the MAC address on all other systems

1 Press the **Settings**/**Setup** key.

2 Tap **Connectivity**.

3 Do one of the following:

   a If **Transfer Mode** is set to **DICOM**, proceed to Step 4.

   b If **Transfer mode** is not set to **DICOM**, select **DICOM**, and press **Yes** to restart the system. After the system restarts, press **Setup/Settings**.

4 Select **Network Status** in the list on the left.
The MAC address for the wireless adapter is listed under **Wireless MAC Address**.
